To learn more about the UO's impact, contact us at gcr@uoregon.edu or visit gcr.uoregon.edu/oregon-

* UO's program that ensures academically-qualified Pell Grant-eligible Oregonians will have their tuition and fees paid through a combination of federal, state and university funds.

** The Oregon Opportunity Grant (OOG) is Oregon's largest state-funded, need-based grant program for college students.

The UO is an equal-opportunity, affirmative-action institution committed to cultural diversity and compliance with the Americans with Disabilities Act. This publication will be made available in accessible formats upon request.

In 2021–22 unmet financial aid need for all UO resident students was \$62.9 million

Examples of Impact | CD 2

Serving a Diverse Student Community

In spring 2022, the University of Oregon qualified for an “**emerging Hispanic Serving Institution**” federal designation. The status is given to institutions with at least 15 percent Hispanic enrollment by the US Department of Education. The status allows an institution to become eligible for various forms of federal support to assist the UO in attaining full status.

Helping Oregon's K-12 Students Meet their Potential

UO College of Education research models, methods, curriculum, and assessment tools **reach 97% of children in Oregon**, including innovations that help students develop math and reading fluency to supporting their emotional and behavioral health. For example, in 2021-22 **nine school districts in CD 2** implemented evidence-based interventions, created by UO faculty with the Center on Positive Behavioral Interventions & Supports (PBIS), that help students develop social-emotional-behavioral competencies and prevent unwanted behaviors.

The UO ranks third among all universities in the nation for the number grants and contracts received from the Institute of Education Sciences.

Promoting Resiliency Through Multi-Hazard Early Warning and Monitoring

With funding support from the Bureau of Land Management (BLM), UO's Oregon Hazards Lab operates the **ALERTWildfire** network. The system's state-of-the-art Pan-Tilt-Zoom fire cameras help first responders confirm fire ignition, scale fire resources up or down, monitor fire behavior, and help evacuations through enhanced situational awareness.

In CD 2, the **Rogue Valley Council of Governments** and the UO have partnered on a FEMA application for 12 cameras to be installed in **Jackson and Josephine Counties**.

In **Oregon's High Desert** region, thanks to BLM funding, three new sites will be installed in 2023 to bring the total regional count to 17. 2023 will also feature expansion into **Umatilla and Morrow counties** in partnership with the **Umatilla Morrow Radio and Data District**.

In **Lake and Klamath counties**, in collaboration with BLM districts, ALERTWildfire cameras have been installed on **Beatys Butte** and **Fish Creek Rim**, the latter built on an ODOT communications tower. **Lakeview Educational Service District** has been an essential partner in providing internet connectivity that ensures the data from ALERTWildfire sites can be transported to UO's data center and published to the website.

In **Klamath County**, two cameras have been installed on **Bryant Mountain**, providing a full 360 degree view. The cameras are collocated with a high-precision earthquake monitoring station that contributes to the **ShakeAlert** earthquake early warning system, also operated in Oregon by the Oregon Hazards Lab.
