78% of recent graduates are working, attending school, or performing some type of intensive service (e.g., Peace Corps). Among UO's top 10 peer institutions, only two report a higher percentage of recent graduates working or continuing their education.

To learn more about the UO's impact, contact us at gcr@uoregon.edu or visit gcr.uoregon.edu/oregon-impact

* UO's program that ensures academically-qualified Pell Grant-eligible Oregonians will have their tuition and fees paid through a combination of federal, state and university funds.

** The Oregon Opportunity Grant (OOG) is Oregon's largest state-funded, need-based grant program for college students.

The UO is an equal-opportunity, affirmative-action institution committed to cultural diversity and compliance with the Americans with Disabilities Act. This publication will be made available in accessible formats upon request.

UNIVERSITY OF
OREGON

UO in House District 10

These are just a few examples of the many ways UO students, researchers, and programs contribute to the State of Oregon. Learn more at uoregon.edu/impact.

Helping Oregon's K-12 Students Meet their Potential

UO **College of Education** research models, methods, curriculum, and assessment tools reach 97% of children in Oregon, including innovations that range from helping students develop math and reading fluency to supporting their emotional and behavioral health. For example, in 2022-23, 2 school districts in HD 10 implemented evidence-based interventions, created by UO faculty with the **Center on Positive Behavioral Interventions & Supports (PBIS)**, that help students develop social-emotional-behavioral competencies and prevent unwanted behaviors.

A Spectacular Place to Study Marine Organisms and Ecosystems

The UO's **Oregon Institute of Marine Biology (OIMB)**, located in Charleston, has been teaching and conducting research on the southern Oregon coast since 1924. The facility includes offices, labs, and residences for more than a dozen faculty, 350 undergraduate students, a dozen graduate students, and residential and research space for visiting scientists.

OIMB operates the Charleston Marine Life Center, OIMB's public outreach center open to the public year-round. During the 2022-23 academic year, the center hosted more than 15,000 visitors, including 2,540 K-12 students from 60 schools, camps, and youth organizations throughout Southwest Oregon, including Ashland, Central Point, Coquille, Eugene, Glide, Mapleton, Medford, Myrtle Point, Newport, Port Orford, Powers, Roseburg, Sutherlin, Toledo and Wolf Creek.

Promoting Resiliency Through Multi-Hazard Early Warning and Monitoring

UO's **Oregon Hazards Lab (OHAZ)** operates two networks that analyze, monitor, and mitigate multi-hazards in Oregon.

In collaboration with the U.S. Geological Survey and other public and private partners, the lab operates **ShakeAlert**, the West Coast onshore earthquake early warning system that provides seconds to minutes of warning of impending ground shaking. The warning from hundreds of sensors placed throughout Oregon, including 22 sensors in HD 10, allows individuals to carry out pre-determined actions for safety, and, through automation, industry, utilities and transportation sectors are able to power down or protect critical operations.

With funding from the State of Oregon and the Bureau of Land Management, OHAZ also operates the Oregon portion of the **ALERTWildfire** network. State-of-the-art Pan-Tilt-Zoom fire cameras, including 45 in Oregon and 1 in HD 10, help first responders confirm fire ignition, scale fire resources up or down, monitor fire behavior, and help evacuations through enhanced situational awareness.
