

THE DIFFERENCE DUCKS MAKE | 2024 IN SENATE DISTRICT 16

BY THE NUMBERS

DISTRICT 16	UO
165 CURRENT STUDENTS	23,834 CURRENT STUDENTS
48 DEGREES AWARDED	OVER 5,300 DEGREES AWARDED

CREATING OREGON'S WORKFORCE

DISTRICT 16	STATEWIDE
2,252 ALUMNI	124,031 ALUMNI LIVING IN OREGON
\$2.6B ECONOMIC FOOTPRINT	32 SPINOUT COMPANIES

78% of recent graduates are working, attending school, or performing some type of intensive service (e.g., Peace Corps). Among UO's top 10 peer institutions, only two report a higher percentage of recent graduates working or continuing their education.

MAKING COLLEGE AFFORDABLE

DISTRICT 16	STATEWIDE
65 PELL GRANT RECIPIENTS	3,167 PELL GRANT RECIPIENTS
45 PATHWAY OREGON* STUDENTS	2,143 PATHWAY OREGON* STUDENTS
59 OREGON OPPORTUNITY GRANT AWARDS**	2,968 OREGON OPPORTUNITY GRANT AWARDS**
127 FINANCIAL AID AWARDS	8,340 FINANCIAL AID AWARDS
DISTRICT 16 Financial Aid Received	\$104M IN TOTAL AID

In 2022–23 unmet financial aid need for all UO resident students was \$63.3 million

To learn more about the UO's impact, contact us at gcr@uoregon.edu or visit gcr.uoregon.edu/oregon-impact

* UO's program that ensures academically-qualified Pell Grant-eligible Oregonians will have their tuition and fees paid through a combination of federal, state and university funds.

** The Oregon Opportunity Grant (OOG) is Oregon's largest state-funded, need-based grant program for college students.

The UO is an equal-opportunity, affirmative-action institution committed to cultural diversity and compliance with the Americans with Disabilities Act. This publication will be made available in accessible formats upon request.

UO in Senate District 16

These are just a few examples of the the many ways UO students, researchers, and programs contribute to the State of Oregon. Learn more at gcr.uoregon.edu.

A New Approach for Improving the Behavioral Health and Well Being of Children

The **Ballmer Institute for Children's Behavioral Health**, located in the UO's new NE Portland campus, is creating a new profession – the child behavioral health specialist – that only requires an undergraduate degree to deliver behavioral health services in schools, the healthcare system, and other community settings. The program emphasizes training in the early identification of behavioral health concerns and delivery of interventions that can prevent the onset of mental health problems in young people. The program prioritizes the needs of youth who have been historically or persistently underserved and will be shaped by the input of community stakeholders. The first cohort of child behavioral health specialists will graduate in 2026.

Helping Oregon's K-12 Students Meet their Potential

UO **College of Education** research models, methods, curriculum, and assessment tools reach 97% of children in Oregon, including innovations that range from helping students develop math and reading fluency to supporting their emotional and behavioral health. For example, in 2022-23, 9 school districts in SD 16 implemented evidence-based interventions, created by UO faculty with the Center on Positive Behavioral Interventions & Supports (PBIS), that help students develop social-emotional-behavioral competencies and prevent unwanted behaviors.

Meeting Industry Workforce Needs

Every year the **Knight Campus Graduate Internship Program (KCGIP)** enrolls 80-100 students pursuing master's degrees in focus areas of semiconductors, optics, polymers, sensors and genomics. Students are placed in paid internships at companies in Oregon and beyond. 90% of internship graduates are employed within their field in three months, and companies benefit from skilled scientists with real-world experience.

With support from the state through a Workforce Ready Grant, KCGIP is expanding the Oregon Pathways to Industrial Research Careers, an NSF grant-funded program that supports Pell grant-eligible students as they move through community college and the UO to high-wage science and engineering careers. Students start at Central Oregon, Lane, and Umpqua CCs and transfer to UO to earn physics, chemistry, or biochemistry degrees, and then pursue an industry-focused master's degree through the KCGIP.
