NEXT GENERATION HOUSING

Over the next 20 years, the University of Oregon is planning more high-quality, learning-centered residential communities on campus that are compatible with surrounding neighborhoods, provide a gentle transition between higher and lower intensity uses, and serve our growing student community.

To plan for a variety of housing types that meet the needs of first-year students, undergraduates, graduates, and families, the UO is finalizing a long-term plan for on-campus housing and an update to the 2003 East Campus Plan.

For information on plans and opportunities for input, visit gcr.uoregon.edu/next-generation-housing.

Riverfront Parkway and Millrace Drive

Building façade and roofing system installations are underway and interior wall framing and building system installations are underway on all levels. The Knight Campus Building 1 north entrance and the pedestrian boardwalk between Building 1 and Millrace are both closed during construction of the skybridge connecting Buildings 1 and 2. Riverfront Parkway remains open in all directions with occasional construction traffic. Completion is on schedule for Winter 2026.

Kalapuya-Illihi Residence Hall

UO Athletics Indoor Practice Facility

Leo Harris Parkway

In preparation for the construction of a new athletics practice facility west of Autzen Stadium in 2026, a portion of Leo Harris Parkway is being realigned. Leo Harris Parkway is temporarily closed to all traffic at the west end between MLK Blvd. and the new Eugene Science Center parking lot west of the footbridge to Alton Baker Park through summer 2025. Access to UO Athletics facilities, the Eugene Science Center, and Alton Baker Park is available from the east end of Leo Harris Parkway. The new parking lot adjacent to Eugene Science Center remains open.
